Labor Body Has Defied Instruction of Federation in Painters' Dispute.

The New York Building Trades Council, whose president, Robert B. Brindell, was recently accused in the housing inquiry in New York of taking a \$20,000 bribe, is liable to expulsion from the American Federation of Labor, it was learned today.

The Council has defied the instructions of the Federation's Building Trades Department to unseat Painters Local No. 1, and take no further action against the regularly chartered New York local of the Brotherhood of Painters and Decorators in any endeavor that organization may see fit to take.

It is charged that the Painters' Local No. 1, was formed by master painters in New York city to break the strike of the Painters' Brotherhood.

Brindell has appealed to the executive council of the American Federation of Labor which meets here November 11. The Building Trades Department demands that either its instructions be complied with or the charter of Brindell's organization be revoked.

John Donlin, president of the Building Trades Department, said today that the bribery charges against Brindell will not enter into the case. According to other labor officials, if the charges are proved to the satisfaction of the executive council, it will demand a reorganization of the council and the ousting of Brindell.

## ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try having acids all digested and neutralized instead of set from any druggist a few ounces of Bisulphate of Magnesia and take a teaspoonful in a quart of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain.
